Dear Parents:

Educational packages will be available for pickup on Fridays every week. Friday Pickups are available for Division 1 parents who were not able to get their learning package last week. Division 2 educational packages are being prepared this week and will be available Friday, May 1, 2020. This process will continue until we transition to our online programming. Teachers are currently working with TCEF and will be using Google suite and Google Classroom to facilitate our programming as we adapt to this new way of teaching.

We are looking at making contact with parents to initiate our programs in the following days and weeks. Please contact your child's teacher at the following address:

This will provide us with the initial contact we need to be able to contact our students through their own individualized email. Once they are registered through us we can begin our online programming.
